

Bridge Courses

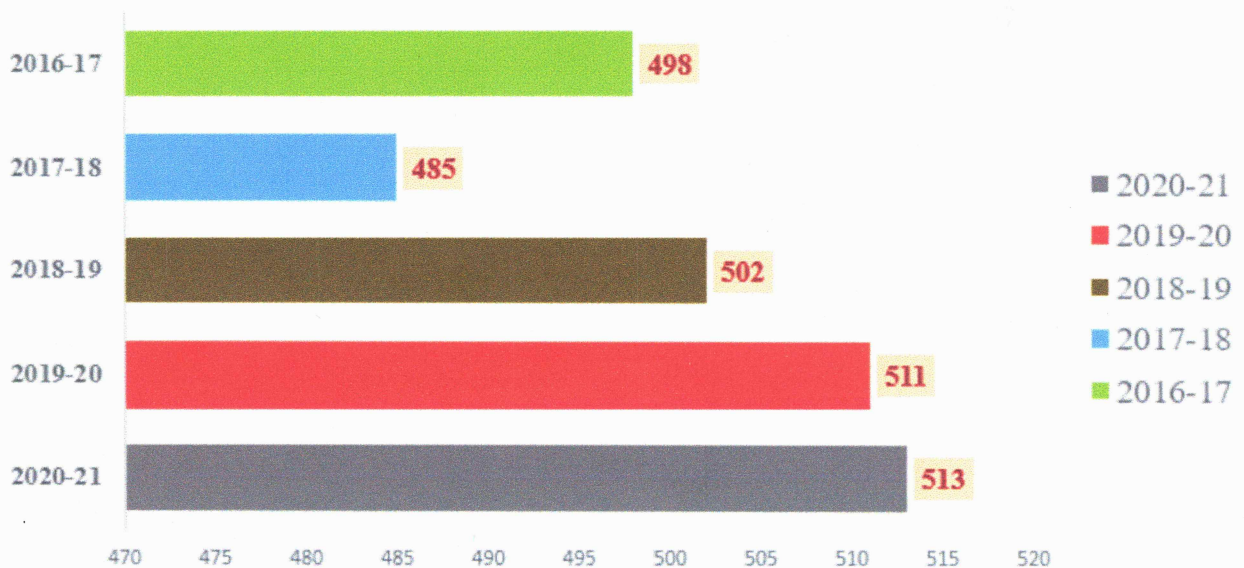

Bridge courses are conducted for the first year B. Tech students in order to bridge the gap between the subjects studied in the previous institutions. Bridge courses are conducted specially for the slow learners after identifying their performance in the proficiency test.

Basically, the first year B. Tech is common for every branch with the rudimentary subjects like Mathematics, Physics, Chemistry, English, Environmental studies and Fundamentals of Computer etc. Keeping the **slow learners in mind** the bridge courses are framed to motivate them and help them to cope with the basic knowledge of the subject. Following are the no of students benefited.
