

## Remedial classes

Course teacher identifies slow learners after the **Mid-Exams** and remedial classes are arranged regularly for freshers. This service is also extended to senior student of other years who failed to perform well in semester exams. This helps them to come-up to the level of other students. They are given a thorough **coaching** in the current semester subjects, so that their chances of not learning the courses at a normal pace are minimized.

An example of a few courses is given below
