A one day seminar on Intellectual Property Rights		
Dates of conduction	Participants	No. of Participants
11.3.2019	III ECE	60
Resource Personnel and Affiliation	Dr. C.S. N Raju, Professor, ANU, Guntur	

God gifted the man with a wonderful organ called Brain. Man started designing his own world by application of his brain or mind and by utilization of the natural resources. Man has also been bestowed with imagination and creative energy. With the gift of imagination and creativity, he has been producing numerous articles or products for his needs, comfort and convenience. In the past, the creations and inventions by him fell in a public domain. These were the common properties where anybody could use and copy these creations and inventions without any restriction, reservation or payment. With the passage of time, the importance and value of man's creations was realized. The commercial aspect started playing an important role in these creations. By end of the 20th Century, the products created and invented by the human mind were recognized as an intellectual property of the owner. The owner's right over these properties was accepted and is known as an **Intellectual Property Right** or

I.P.R. A new set of laws called Intellectual Property Right Laws, were enacted to protect these property rights. These I.P.R. laws provided a protection to the owners under different categories and names like Patents, Industrial designs, Copyrights, Trade- Marks etc. Students should have knowledge of IPR.. ALIET provides a platform for students and staff for academic/career advancement.

A one-day seminar on **Intellectual Property Rights** was organized by the Dept. of ECE on 11 March 2019. **Dr. C.S. N Raju**, Professor, ANU, Guntur, was the resource person. He explained about patents, trademarks, copyrights etc. The goal of IPR is to encourage intellectual innovation. The intricacies of invention, entrepreneurship and goals have been explained in detail by the resource person. The resource person appreciated the management for taking efforts to organize programs to enlighten the students.

Sir,
Sub: Invitation to be a resource person -request- reg.,

ALIET is one of the premier institutions in Vijayawada, offering quality education to its students in the field of Engineering & Technology. The department of ECE is in forefront by conducting various workshops, seminars, guest lectures and Faculty development programs in collaboration with industry and academia to improve overall standards of the institute.

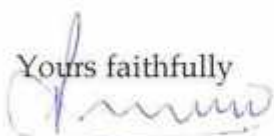

The department of ECE is planning to organize a Seminar
for ECE students from 11.3.2019 to 11.3.2019 (1) day(s)
on Intellectual Property rights.
Hence, I request your kind self to be a Resource Person for the
program. Please confirm your acceptance for the same.

Thanking you sir

accepted.

Emerging Trends in Financial Markets and Job Opportunities

Title: Emerging Trends in Financial Markets and Job Opportunities

Date(s): 28.03.2019

Venue: MBA Seminar Hall

Participant's:

MBA students: I Year - 49

Resource Person: Sri. Zakeer Hussain, Director, Artha Institute of Financial Services, Vijayawada

Description about the event: The Department of MBA organized career counseling session on **Emerging Trends in Financial Markets and Job Opportunities** on 28.03.2019. The main focus of the session was on making students aware on financial opportunities available in the market by introducing certification courses of financial modules.

Mr. Zakeer Hussain, Director of Artha Institute of Financial Services, Vijayawada, delivered a guest lecture on **Emerging Trends in Financial Markets and Job Opportunities**. In his lecture he explained how the financial markets function. He illustrated a good number of examples for the better understanding of financial markets. The speaker cited the job opportunities open for MBA students in the field of financial market.

Guest Lecture on “Digital Marketing”

Title: Guest Lecture on **Digital Marketing**

Resource Person: Mr. Nitin Mishra, Data Scientist and Trainer for Analytics, INNODATATICS

(EXCELR), Bangalore.

Date(s): 20th February, 2019

Venue: North Seminar Hall, Old Block, Andhra Loyola Institute of Engineering and Technology,

Vijayawada.

Participants:

41 Students of I MBA participated in the event.

Description about the Guest Lecture:

A guest lecture on **Digital Marketing** gives the students an in-depth understanding and advanced knowledge of the most important digital marketing domains. **Mr. Nitin Mishra**, Scientist and Trainer for Analytics, INNODATATICS (EXCELR), Bangalore, delivered guest lecture on **Digital Marketing** on 20th February, 2019, covering topics like Search Engine Strategy, Digital Analytics and Online Ad Campaign for the first year students of MBA. Mr. Mishra shared real life situations faced in digital marketing firms by giving case studies to work on. He also illustrated various ad campaigns carried out by his firm. **Students learnt that** digital marketing is the marketing of products or services using digital technologies. mainly on the Internet, but also including mobile phones, display advertising, and any other digital medium. They also developed an in-depth understanding of top-of-mind digital marketing functions such as inbound marketing, paid marketing, social media marketing and web analytics.

ELECTRICAL AUTOCAD

The Department of Electrical and Electronics Engineering conducted a three day National Workshop on **Electrical AutoCAD** on 12th, 13th& 14thFebruary 2019, in collaboration with Robo Kart and Innovation Cell, IIT Bombay. Nearly 59 students from 2ndand 3rdyear participated in the workshop. **Mr. Nitin Acharya**, Trainee Engineer, Robo Kart Technologies, Hyderabad was the resource person for this programme.

The workshop on **Electrical AutoCAD** aimed to focus on the overview of AutoCAD electrical with emphasis on naming conventions; the use of symbol and their libraries, generation, and insertion of PLC layout modules, and organization of PLC database files.

AutoCAD Electrical is a specialist control panel of Autodesk. The AutoCAD electrical software increases the productivity levels of up to 80% when compared to the traditional methods of 2D drafting. The sound knowledge of the software can enable the electrical engineering students to exploit the surplus availability of specially developed electrical drafting tools to enhance the productivity.

This workshop gave an enriching experience to students and provided a practical exposure on AUTO CAD software.

Sub: Request to organizing **E-CAD** at our institute for EEE students

Dear Sir,

ANDHRA LOYOLA INSTITUTE OF ENGINEERING AND TECHNOLOGY, Vijayawada, affiliated to JNTUUK; Kakinada is a pioneering institution in imparting value based quality education in the area of engineering and management. The college is successfully running B. Tech course from 2008 and attracts the students from all over the country.

We organize different activities for enrichment of the student's knowledge apart from Classroom teaching. In this context, we would like to organize a workshop on E-CAD from FEB 12th to 14th 2019.

We will provide you the infrastructure support as per the proposal received by you.

We are appointing our two Student coordinator to coordinate entire event. Name and Contact Numbers of the coordinator are given below:

Staff Co-ordinator :

M RAMA KRISHNA, 9293731842

K RAJESH BABU, 8125956333

Student Co-ordinator :

Workshop

Title: 3D Printing work shop

Date(s): 11-3-19

Time: 10.00AM – 04.00PM

Resource person: Mr. L Prem Ajay, Entrepreneur, Lets 3D Vijayawada

Participants: 60 students pursuing III Year II Semester MECHANICAL and Two faculty members

PRINCIPAL
ANDHRA LOYOLA INSTITUTE OF
ENGINEERING & TECHNOLOGY
VIJAYAWADA-520 008.

Description about the Workshop:

3D printing technology has grown so rapidly that it's making waves across every industry. Though the technology is fairly new, its application has become so versatile and so in-demand that there's a growing need for people who can understand, operate, and provide innovation through 3D printers and 3D modeling concepts. An increasing number of job postings are calling for engineers who can implement 3D printing and additive manufacturing into company processes. Students, who wish to seek challenging opportunities in an exciting industry poised to revolutionize business, could sharpen their skills and increase their knowledge of the 3D industry.

Mechanical students pursuing III Year II semester attended a workshop on **3D Printing**. The workshop was organized by the department of Mechanical on 11 March 2019. **Mr. L PremAjay,**

Entrepreneur, Lets 3D Vijayawada, gave a lecture on the importance of 3D Printing.

Delivering his lecture, he said that 3D printers are a rapidly-advancing technology that calls for engineers who can understand, maintain, and operate the equipment. Mechanical, industrial, or software engineers should have a better grasp of what is involved in producing accurate working models and components for manufacturing and architectural designs. Workshops like this can serve as springboard for innovation.

Title: WELDING TECHNOLOGIES AND QUALITY OF WELDINGS

Date(s): 9-01-2019

Time: 10.00AM – 04.00PM

Resource person: Mr. P. Praveen Patnaik, Technical Manager, FUTURE NDT, VIJAYAWADA

Participants:

60 Mechanical students of II Year II Semester and two faculty members attended the program.

Description about the Guest lecture report:

Welding technology provides students with hands-on training in the latest welding equipment and procedures. Guest lectures guide students through welding theory and help build practical skills in the many aspects of becoming a professional welder, including robotic welding, non-destructive testing, welding design, welding techniques, and quality assurance. Students gain the mathematical skills needed to ease into technical and managerial positions within the welding and fabrication industries.

The department of Mechanical Engineering organized a guest lecture on **Welding Technologies and Quality of Weldings** on 9 January 2019 with the aim of equipping the students with the essential skills in welding. The guest lecture provided knowledge in both the theory and practical skills needed to prepare students for entry-level employment. **Mr. P. Praveen Patnaik**, Technical Manager, FUTURE NDT, VIJAYAWADA was invited as the resource person. Mechanical students of II Year II semester attended the guest lecture. The program provided the students with the basic technical skills needed for entry-level welding positions in several industries and advanced instruction designed to increase career opportunities or provide specialized training. It also familiarized students with welding standards and provided education in testing methods and inspection techniques.

Sub: Request to organizing Solar & Smart Energy at our institute for
EEE students

Dear Sir,

ANDHRA LOYOLA INSTITUTE OF ENGINEERING AND TECHNOLOGY,
Vijayawada, affiliated to JNTU; Kakinada is a pioneering institution in imparting value
based quality education in the area of engineering and management. The college is
successfully running B. Tech course from 2008 and attracts the students from all over the
country.

We organize different activities for enrichment of the student's knowledge apart from
Classroom teaching. In this context, we would like to organize a workshop on Solar & Smart
Energy Systems from 12th to 14th July 2018.

We will provide you the infrastructure support as per the proposal received by you.

We are appointing our two Student coordinator to coordinate entire event. Name and
Contact Numbers of the coordinator are given below:

Staff Co-ordinator :

T. KRISHNA MOHAN, 9908039885
K RAJESH BABU, 8125956333

Student Co-ordinator :

Y Sai Bhargav (IV-EEE)
Sai Shankar Rao (III-EEE)

Report on Seminar/Conference/Workshop/FDP conducted

Title: "A ONE DAY WORKSHOP ON DATA SCIENCE AND BIG DATA ANALYTICS"

Date(s): 15-02-2019

Preamble:

A Workshop on "DATA SCIENCE AND BIG DATA ANALYTICS" was conducted on 15-02-2019, at Andhra Loyola Institute of Engineering and Technology, Vijayawada, Krishna District of Andhra Pradesh.

Participant's Profile:

A total of 30 Faculty members of CSE & IT, ALIET and staff from various colleges participated in this FDP .

PRINCIPAL
ANDHRA LOYOLA INSTITUTE OF
ENGINEERING & TECHNOLOGY
VIJAYAWADA-520 008.

Description about the Program:

Workshops are a vital part of most academic courses that give faculty an opportunity to discuss topics and issues with students, teaching assistants and members of academic staff.

A workshop on **Data Science and Big Data Analytics** was conducted by the department of CSE and IT on 15-02-2019. **Ms. Sravya**, Trainer from Information and Communication Technology (ICT) Academy, Chennai was present for the workshop as the resource person. She said that Data science is an interdisciplinary field that includes statistics, predictive analytics, machine and deep learning and aims to get extra insights from data. The idea of data science is to run data experiments in order to reveal hidden patterns and dependencies.

Big data analytics examines large amounts of data to uncover hidden patterns, correlations and other insights. The resource person emphasized that with today's technology, it's possible to analyze the data and get answers from it almost immediately – an effort that's slower and less efficient with more traditional business intelligence solutions.

This workshop offered many practical strategies for the participants to develop in-depth knowledge on **Data Science and Big Data Analytics**.

Feedback:

All the Faculty members expressed positive feedback about the programme.

Workshop on Cyber Security

Date: 26th- 28th November, 2018

Safeguarding digital information involves multiple techniques and layers of security.

Different methods and technologies can be employed to protect the digital content. Awareness of the right methods is essential. So the department of Information Technology organized a three day workshop on Cyber Security. Mr. Phani Kumar and Mr. V. Surendranath from ESF Labs, Gujarat, explained the importance of Cyber Security. Cyber security is the protection of computer systems from theft or damage to the hardware, software or electronic data, as well as from disruption or misdirection of the services they provide. Around 60 students attended the workshop and acquired hands-on experience.

Participants: IV Year I Semester MECHANICAL 60 students and Two faculty members

PRINCIPAL
ANDHRA LOYOLA INSTITUTE OF
ENGINEERING & TECHNOLOGY
VIJAYAWADA-520 008

Description about the Workshops:

Science seems to play an ever increasing role in our society. The products that we buy and produce are becoming more technical and, therefore, jobs are becoming more technical. It is important to develop a good understanding of basic science. To develop an understanding of NDT technology is definitely in demand. The department of Mechanical organized a workshop on NDT for Mechanical students of IV Year on 12 March 2019. **G.Vijay Kumar**, Managing Director, Future NDT, Vijayawada addressed the gathering. FUTURE NDT is a Leading career development centre conducting personnel training and certification programs and is a platform wherein individual members & organizations can interact and share their services with others. They have a successful track record of over seven years in training, development and sourcing of trained human resource to Energy & Quality Sector Companies. ALIET is fortunate to have an eminent personality from Future NDT. The students gained knowledge on NDT. Workshops like this would provide the students a competitive advantage.

Everything is getting advanced every second of time. Every day starts with something innovative. Lots of researches and studies are carried out on various concepts around the world. These updates on various fields cannot be included in the student curriculum. Aspiring engineers should always keep their eyes on the latest trends and technologies. This is where seminars are of great importance. They are capable of updating the students on a variety of topics. A one day seminar on “**Emerging Telecom Technologies**” was held for III year students on 7 July 2018. **Mr.P. Raju Sr. Divisional Engineer**, BSNL, Vijayawada, addressed the audience on the latest telecom revolution, 5G technology, Switching systems, essentials of Cellular base station and IoT with internet. The students got benefited from this program. Workshops like this will go a long way in preparing the students for a brightcareer.

Report on Seminar/Conference/Workshop/FDP conducted

Title: "DEVELOPMENT USING SPRING TOOL SUITE"

Date(s): 16-8-2018 and 17-08-2018

Preamble:

A Two day workshop on "DEVELOPMENT USING SPRING TOOL SUITE" was conducted on 16-8-2018 and 17-08-2018 at Andhra Loyola Institute of Engineering and Technology ,Vijayawada, Krishna District of Andhra Pradesh.

Participant's Profile:

A total of 140 students and Faculty members of CSE, ALIET participated in this workshop.

Description about the Program:

The department of CSE organized a workshop on **DEVELOPMENT USING SPRING TOOL SUITE** on 16th and 17th August 2018. The primary objective of the workshop is to enlighten the faculty and the students on the advancements that have been taking place in Spring Tool Suite. The Spring Tool Suite provides a wide range of operations and functions to develop applications which mainly focus on improvising security configuration, web applications, Big Data Analytics etc. The Resource Person of this workshop was **Mr.M.Harish Kumar**, Senior Software Engineer, Open Text Technologies, Madhapur, Hyderabad.

In this workshop, students worked through the steps of creating a hello world Spring Model View Controller (MVC) application using Spring Tool Suite (an Eclipse-based IDE). They learnt the fundamental concepts of Spring MVC during building the sample application. The tools/technologies used in the workshop were:

- Spring framework 3.2.2
- Spring Tool Suite IDE 3.2.0 (based on Eclipse Juno 4.2.2).
- vFabric tc Server Developer Edition v2.8 (based on Apache Tomcat and optimized for Spring applications).

The Spring Tool Suite provided a wide range of operations and functions to develop applications which mainly focus on improvising security configuration, web applications, Big Data Analytics etc.

Feedback:

All the students were satisfied with the workshop.

Report on Seminar/Conference/Workshop/FDP conducted
Title: “A TWO DAY WORKSHOP ON JAVA PROGRAMMING”
Date(s): 1-3-2019 and 2-3-2019
Preamble: A Two day workshop on” Java Programming” was conducted on 1-3-2019 and 2-3- 2019, at Andhra Loyola Institute of Engineering and Technology, Vijayawada, Krishna District of Andhra Pradesh.
Participant’s Profile: A total of 140 students &Faculty members of CSE, ALIET participated in this workshop.

PRINCIPAL
ANDHRA LOYOLA INSTITUTE OF
ENGINEERING & TECHNOLOGY
VIJAYAWADA-520 008.

Description about the Program:

Java is one of the most popular programming languages used to create Web applications and platforms. Java is used in both software and web development. It was designed for flexibility, allowing developers to write code that would run on any machine, regardless of architecture or platform. More than 1 billion computers and 3 billion mobile phones worldwide run Java. So the department of CSE organized a two day workshop on **Java Programming** on 1st March and 2nd March 2019.

Mr. Carrel Patrick, Technical Trainer, ALIET, Vijayawada was invited as the **Resource Person** for this workshop. Addressing the students, he stated that Java is used to build applications and platforms for a number of devices, including computers, laptops, gaming consoles, Blu-ray players, car navigation systems, medical monitoring devices, parking meters, lottery terminals and smart phones. It is also a key language for networking, particularly for data centers that store and transfer Web-based data.

Students were excited to know that Java is also used to create miniature, dynamic programs that run alongside or are embedded within Web pages. The workshop on **JAVA PROGRAMMING** proved to be useful for the students for academic /career advancement.

Feedback:

All the students expressed that they have gained hands on experience.

Report on Seminar/Conference/Workshop/FDP conducted

Title: "FIREWALL INSTALLATION CONFIGURATION AND MANAGEMENT"

Date(s): 04-06-2018 to 08-06-2018

Preamble:

An FDP on "FIREWALL INSTALLATION CONFIGURATION AND MANAGEMENT" was conducted from 04-06-2018 to 08-06-2018, at Andhra Loyola Institute of Engineering and Technology, Vijayawada, Krishna District of Andhra Pradesh.

Participant's Profile:

A total of 30 Faculty members (CSE&IT) of ALIET and staff from various colleges participated in this FDP.

Description about the Program:

The department of CSE and IT organized a five day FDP on **Firewall Installation Configuration and Management** from 4th June to 8th June 2018. Mr.S.SHANMUGAVEL Training Manager, ICT Academy, Chennai was invited as the resource person.

Faculty who attended this FDP gained an in-depth knowledge of how to install, configure, and manage firewall. They also learnt the configuration steps for the security, networking, threat prevention, logging, and reporting features of the Palo Alto Networks.

Feedback:

All the Faculty members expressed their satisfaction about the programme.

Report on Seminar/Conference/Workshop/FDP conducted

Title: "CLOUD INFRASTRUCTURE & SERVICES"

Date(s): 31-10-2018 TO 5-11-2018

Preamble:

An FDP on **CLOUD INFRASTRUCTURE & SERVICES** was conducted from **31-10-2018 to 5-11-2018**, at Andhra Loyola Institute of Engineering and Technology, Vijayawada, Krishna District of Andhra Pradesh.

Participants Profile:

A total of 55 Faculty members from CSE & IT of ALIET and staff from various colleges participated in this FDP.

PRINCIPAL
ANDHRA LOYOLA INSTITUTE OF
ENGINEERING & TECHNOLOGY
VIJAYAWADA-520 008.

Description about the Program:

A cloud service is any vital service made available to users on demand via the Internet from a cloud computing provider's servers as opposed to being provided from a company's own on-premises servers. Cloud services are designed to provide easy, scalable access to applications, resources and services, and are fully managed by a cloud services provider.

Realising the importance of cloud service, an FDP on **CLOUD INFRASTRUCTURE & SERVICES** was conducted by the department of CSE from **31-10- 2018 to 5-11-2018**. It aimed at informing the staff about the **Cloud Infrastructure & Services**. **Ms .N. SRAVYA**, Training Manager, ICT ACADEMY, Chennai was invited as the resource person. Delivering her lecture, she stated that Cloud Services are Dynamic and scale. A cloud service can dynamically scale to meet the needs of its users, and because the service provider supplies the hardware and software necessary for the service, there's no need for a company to provision or deploy its own resources or allocate IT staff to manage the service. Examples of cloud services include online data storage and backup solutions, Web-based e-mail services, hosted office suites and document collaboration services, database processing, managed technical support services and more.

Report on Seminar/Conference/Workshop/FDP conducted

Title: A Two Day Workshop on "ETHICAL HACKING"

Date(s): 31-8-18 to 1-9-18

Preamble:

A workshop on **ETHICAL HACKING** was conducted from 31-8-18 to 1-9-18 at Andhra Loyola Institute of Engineering and Technology, Vijayawada, Krishna District of Andhra Pradesh.

Participants Profile:

A total of 140 students and Faculty members of CSE&IT, ALIET participated in this workshop.

Description about the Program:

A two day workshop on **ETHICAL HACKING** was conducted by the department of CSE from 31-8-18 to 1-9-18. It aimed to update the knowledge on the recent advancements in technological domain. The resource person for the workshop was **Dr.C.Nagaraju**, Professor from YSR Engineering College, Proddatur, Andhra Pradesh.

The workshop is helpful considering the increasing security threats to computer networks and web servers and the need to make networks "hacker-proof". The best way to do this is by understanding the methods employed by hackers to intrude into systems.

This purpose of this workshop is to help establish and govern minimum standards for professional information security specialists in ethical hacking measures. This workshop on **Ethical Hacking** introduced the students to an interactive environment where they were trained how to scan, test, hack and secure their own systems. Students learnt how perimeter defenses work and then learn how to scan and hack their own networks (no real network is harmed) to spot vulnerabilities.

During this ethical hacking workshop, students learnt how intruders escalate privileges and what

steps can be taken to secure a system.

Feedback:

All the Faculty members and students expressed a positive feedback on the programme and hospitality.

Report on MIX Proportioning Workshop

The department of Civil Engineering conducted a workshop for final year students on **Concrete Mix Proportioning** on 29th November 2018. **Dr .K. Venkataraman**, Regional Head-

Technical Services, Ultra Tech Cement Ltd., Vaddeswaram was the resource person. The purpose of concrete mix design is to ensure the most optimum Proportions of the constituent materials to fulfill the requirements of the structure being built. **Concrete mix design** is the process of selecting the ingredients for a **concrete mixture** and deciding on their proportions. When designing a **concrete mix**, every engineer should always consider the desired strength, durability, and workability of the **concrete** for the project in question.

The event started with the formal inauguration function invoking the blessing of almighty. In this workshop students learnt that Mix design should ensure the desired workability, desired minimum strength, desired durability and produce concrete as economically as possible. The participants learnt to prepare concrete mix M30 grade using ultra tech cements. They actively worked on worksheets during the practical session.

Report on Seminar/Conference/Workshop/FDP conducted
Title: SEMINAR ON PYTHON PROGRAMMING
Date(s): 13-7-18
Preamble: A seminar on PYTHON PROGRAMMING was conducted on 13-7-18 at Andhra Loyola institute of Engineering and Technology, Vijayawada, Krishna District of Andhra Pradesh.
Participants Profile: A total of 140 students and Faculty members of CSE, ALIET participated in this seminar.

Description about the Program:

The department of CSE conducted a seminar on **PYTHON PROGRAMMING** on 13 July 2018. **Mr.A.Hemanth**, Naresh Technologies, Hyderabad was the Resource Person of this seminar.

Python is an interpreted, high-level, general-purpose programming language.

Created by Guido van Rossum and first released in 1991, Python's design philosophy emphasizes code readability with its notable use of significant whitespace. The knowledge of Python is important for engineering students to excel in their career. The primary objective of the seminar is to group the faculty and the researchers to discuss the programming of Python and its career opportunities in Market. This programme enables the participants to understand about programming and different concepts used for working on Python. The seminar was highly useful for the students and staff.

Feedback:

All the Faculty members posted positive feedback on the programme.
