

5.3.1 Number of awards/medals for outstanding performance in sports/cultural activities at university / state/ national/ international level (award for a team event should be counted as one)

'Forming men and women for others'

Andhra Loyola Institute of Engineering and Technology imparts technical education in accordance with the Jesuit vision of higher education, which involves holistic development of students. The primary objective of the institute is to achieve its mission statement '*Forming men and women for others*'. The College motivates the students to become global citizens with competence, conscience and compassionate commitment. It encourages the students to have team spirit and transmits value-based learning that makes the students to excel in Sports and Games and Cultural activities. Unfortunately, the Universities are not organizing National level Cultural Activities for engineering graduates. Therefore, our students did not have achievements in Cultural activities at National and International level. However, the students are encouraged to participate in National level Technical Symposiums organized at various Engineering colleges in the state. Moreover, the students actively participate in the National level Technical Fest (Epistemicon) and Cultural Fest (Ventura) that are organized on the campus every year.

The students are given ample coaching by the skilled Physical Education Director of the college to exhibit their hidden talents in various sports and games like **Cricket, Basketball, Handball, Throw Ball, Kabaddi, Athletics, Tiquando, Tennis, Badminton, Chess and Karate** etc. ALIET is proud to acknowledge the outstanding performance of **Dimple Surapaneni and T. Chandu Vardhan and B. Bhavani Yadav** at **International and National** level sports and games.
