CLIMATHON -2021

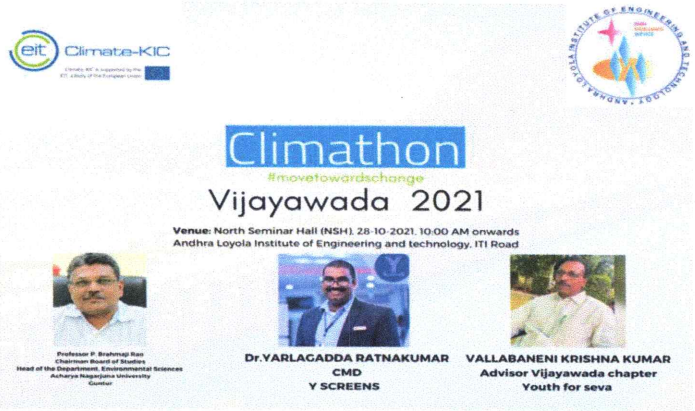

Event: Awareness on Climate change

Date: 27th October 2021

Climathon is a city-based programme that offers a path to action and interaction. It is an opportunity for citizens to co-create ideas that address local climate challenges. The impacts of climate change are all around us, coming even harder and faster than the models predicted. When global climate politics is stifling, it's your turn to move. When business-as-usual is blind to the scale of the crisis we're facing, you have the ability to envision. When faith in policies to fix the problem is fading, our hope rests in people like you. Seeds of change can sprout from a single idea. That is what Climathon is about. Climathon is a stage for those that want to act on behalf of the needs of our planet.

Professor Dr.P.Brahamaji Rao, enlightened students. Nearly 200 students from different colleges all over Vijayawada on climate change and its impact on agriculture. Rev. Fr. Dr. A. Francis Xavier, Director, ALIET greeted the students for the initiative taken by them. Dr. O. Mahesh, Principal spoke about the relevance of the activities on environment along with academics will churn the students as perfect citizens. The programme was organized by Dr. V.V.Prabhakar Rao, Mr. P. Rajesh, Extension In-Charge, and in collaboration with Youth for Seva.

AWARNESS PROGRAMME ON WORLD OZONE DAY

MONTREAL PROTOCOL KEEPING FOOD, US, OUR AND VACCINES COOL

Event: Awareness on Ozone layer

Date: 16th September 2021

The theme for the **World Ozone Day** - 2021 is 'Montreal Protocol Keeping food, us, our and vaccines cool.' The Ozone layer is a piece of the atmosphere that has high ozone concentrations. Ozone is a gas that is made of three oxygen atoms, O₃. Depending on where the ozone layer is, it can either harm life or protect life on Earth. Most of the ozone stays within the stratosphere, whereby it acts as a shield, protecting the surface of the Earth from the harmful ultraviolet radiation of the sun. If this shield was to weaken, we would all be more susceptible to impaired immune systems, cataracts, and skin cancer. World Ozone Day is observed on September 16, every year.

ALIET celebrated the World Ozone day at S.K.R.M.C.High School, Vijayawada to spread awareness among the students, about the depletion of the Ozone Layer. The students of ALIET made a PPT presentation and demonstrated a few activities regarding the importance of the day. This program was organized by Dr.V.V.Prabhakar Rao, Assistant Professor and Extension Coordinator A.Rajesh.

AWARNESS CAMP ON SOLID WASTE MANAGEMENT

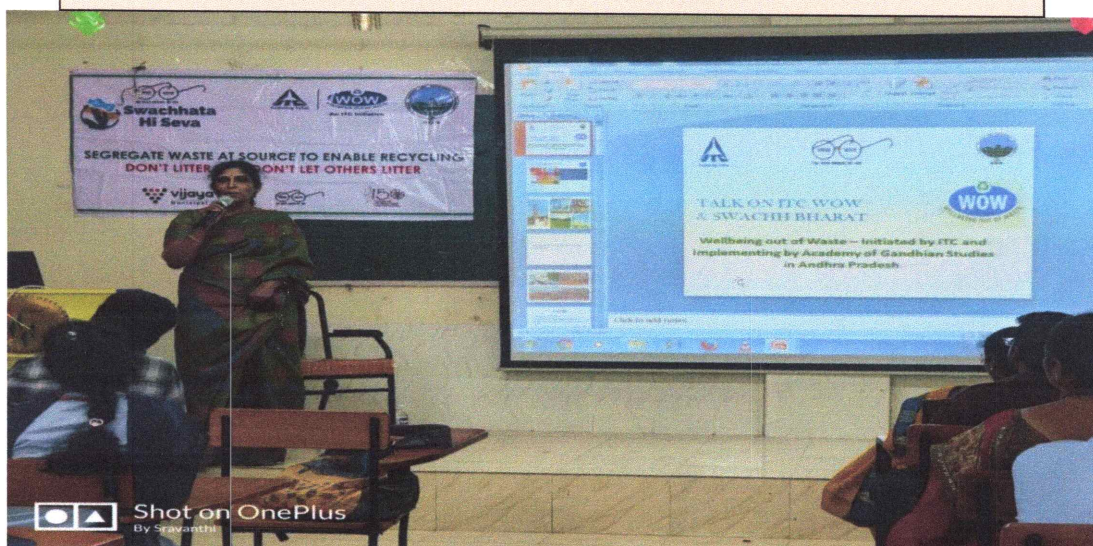

Event: Wealth out of Waste (WOW Programme)

Date: 27th December 2019

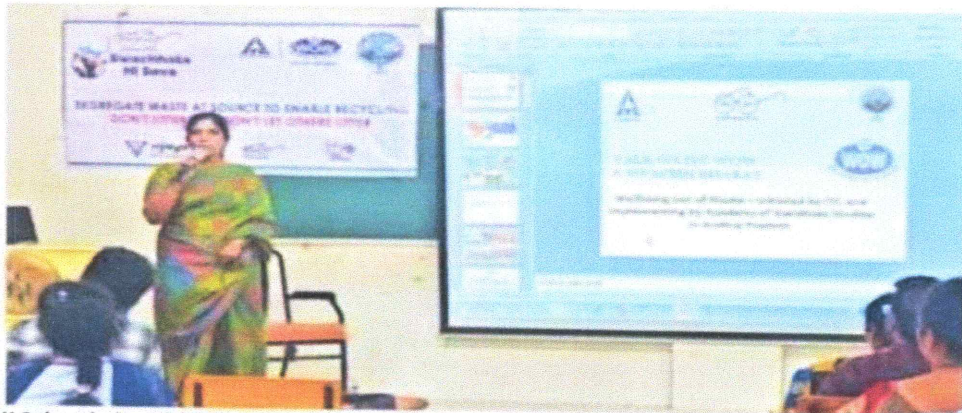

Department of Master of Business Administration of Andhra Loyola Institute of Engineering and Technology (ALLET), Vijayawada organised Awareness Camp on “Solid Waste Management” on 27th December, 2019. The programme was initiated in association with Vijayawada Municipal Corporation, Vijayawada and Academy of Gandian Studies (AGS) Wellbeing out of Waste (WOW) a Corporate Social Responsibility initiative of ITC. The main theme of the programme was Segregate Waste at Source to enable recycling. Don't Litter and Don't let others Litter that is to create awareness on segregating dry and wet waste at source. Mrs. U. Hema Maheswari, State Project Coordinator, AGS WOM introduced the mission of the foundation in creating healthy Environment. She introduced the concept of 1-4-5 to the students. She said that everyone should think a minute before throwing waste in to the dustbin and spend 4 hours to create 5 volunteers per week to save nature. (One minute a day, 4 hours in a week and create 5 volunteers).

Mrs. K. Sakunthala, Additional Commissioner General, Vijayawada Municipal Corporation, Vijayawada spoke on the need for protection of resources and best utilization of such resources. She explained how solid waste can be created as Waste Management Parks. She emphasised the importance of Reduce, Reuse and Recycle (3R) of waste management. She inspired students to be as responsible citizens for protecting the environment. The Awareness Camp woke up the spirit of love and care for mother earth and students promised themselves to be the persons with ISR (Individual Social Responsibility) from their home to society.
