**Description**

NewGenLib is a fully web based integrated library management software that runs on distributed computers through a network or server. It can also run on local area networks without access to the Internet. NewGenLib supports following major international standards for better interoperability. NewGenLib is a complete solution for libraries. It is a unique combination of a library automation software, digital library software and a database search facilitator. With its version 3.1.1 users can not only search library catalogue, but also search various databases subscribed by the library and some open access databases at a single click. NewGenLib is based on Client- Server technology for managing library functions and creating digital library where as its Online Public Access Catalogue is accessible through the Web. NewGenLib is compatible with International standards such as MARC 21 for bibliographic description, ISBD, OAI-PMH Protocol, Z 39.50 Protocol, Dublin Core, Unicode, and many more. It uses Java technology, PostgreSQL for the database, and Apache for Web server. NewGenLib unlike Koha is a platform independent software which turns it more beneficial for the user who are not well verse with Linux. It has five main modules, i.e. technical processing (cataloguing), circulation, acquisitions serial management, and OPAC besides administration, queries and reports.

## VARIOUS MODULES

**Acquisition:** The acquisition module provides a complete solution for acquisition process in a library. This module facilitates to invite quotation from vendors too. If users of the library make requests for new purchase through OPAC they reflect in the acquisition modules request menu. Moreover, NewGenLib is compatible with Z39.5 protocol for searching and import bibliographic records that help to import the bibliographic records from other libraries. It saves a lot of time of the library in cataloguing.

**Cataloguing:** cataloguing is done under the MARC 21 standard. NewGenLib has already created some templates that have simplified the MARC highly. One can easily identify the template and based on the given field cataloguing can be done. These pre designed templates are for cataloguing of book, journal, patent, non-book material, book chapter, journal article, newspaper, etc. One can also attach a digital document to a bibliographical record that converts the OPAC to a digital library. This module facilitates to search the catalogue through the default search index and enable administrator to create his/her own search index.

**Circulation:** Besides very well-known function of circulation services such as issue, return, renew, reservation, Inter-library loan this module also provides many other facilities. This module covers Binding management module that is useful when books are removed for binding and are not be available for circulation. It also has the facility to recall an issued item back in urgent circumstances. NewGenLib provides self-check-in, self-check-out facilities that is managed and verified from circulation module. In case an item is lost or need to be weeded out, circulation also manages these functions also. NewGenLib also provides facility of collecting the overdue on a book in later stages. As NewGenLib is integrated with RFID and Barcoding facilities, circulation functionalities can be integrated with the same that saves a lot of time of the library to enter the user ID and the book accession number manually. On each circulation NewGenLib automatically sends an email to the user to notify him/her about the circulation. In case of an overdue book, it also sends overdue notices to the users. Version 3.1.1 has added a new feature to record the uses of books of reference section and books which cannot be issued under general circulation. In short reference section can also use and record uses of reference material. **Serial Management:** NewGenLib provides a complete solution for acquisition, cataloguing and management of serials. Serial management is one of the very difficult function of a library that is very well handled by NewGenLib. It provides a complete set of functions right

from adding new subscriptions to archiving through bound volumes. One can add the complete list of approved serials for subscription, raise orders for these serials, or cancel any order and re-order any cancelled order, receives receipts and process advanced payments, receive serial issues, manage out-of receipt issues as well as delayed issues. This module also provides functionality to add supplements, indexes received with primary issues, so that the library does not get confused between the number of primary issues and supplements. If the library wants to get old serials volumes bound together, a complete workflow is available in NewGenLib for smooth binding process. In addition to this, the librarian can also create a list of serials which library wishes to renew, this reduces workload of the librarian at the time of serials subscription. For displaying the holding of library in the OPAC, NewGenLib uses Z39.76 protocol that is a standard protocol for the serial display.

**Web OPAC :** OPAC is an essential element of any ILS software. In the age of Google users expect their library's OPAC to compete with search engines, though typically it is not possible for a standalone library to offer wide information through its OPAC. But there are many other features, where an OPAC can compete with a search engine. NewGenLib has advanced its OPAC by facilitating the library to attach a full text document. Version 3.2 of NewGenLib provides many facilities for the users of library, i.e. RSS widget, where libraries can offer an RSS feed from any website; export report, users can export any bibliographic record in several formats to their desktop or can take a print of it or mail it to anybody; it also provides information on users SDI profile.

## CONCLUSION

With the help of high level of technology and international standards NewGenLib in a very short period of time has earned fame as sustainable open source software for library automation. It is advisable to library professionals who are looking forwards for library automation software may adopt NewGenLib ILS to automate their libraries.

## NATIONAL LIBRARY WEEK 2023

ALIET NDLI CLUB celebrated National Library week 2023 from 14<sup>th</sup> to 20<sup>th</sup> November. On the occasion of National Library Week this year we have conducted an Elocution competition for our students on 15<sup>th</sup> November 2023 in the Digital Library. Mrs. N.Dyva Krupa of S&H department was invited as a Judge to the event. Topic was “The great Indian Libraries from Ancient to Present”. Students actively participated in the event.

Two days Book Exhibition opening and Prize distribution ceremony was held on 17<sup>th</sup> November 2023 in the Library. Our Director Rev.Fr.Dr.B.Joji Reddy, S.J., Principal Dr.O.Mahesh, Assistant Director Fr.D.Balaswamy, S.J. were attended and graced the occasion. Program was started with lightening of the lamp. Later paid tribute to Padmasri.Iyyanki Venkata Ramanayya, Architect of the Public Library Moment in India. Director Father, Principal sir and Assistant Director Father delivered their speeches and motivated our students with their inspirational speeches regarding the importance of the Library and utilization of Library resources. Winners were awarded with prizes and certificates. This year's Best Library User awards were also given to our students who utilized the library in a better way.

**Dr. R. Ravindra Bhas**  
M.A., M.Phil., Ph.D.  
Lecturer, ALC

*Events*  
**Guest Lecture**  
**Book Exhibition**  
**Prize Distribution for Essay Writing**  
**& Elocution Competitions**

# ANDHRA LOYOLA INSTITUTE OF ENGINEERING AND TECHNOLOGY

Approved by AICTE, New Delhi and Affiliated to JNTUK-Kakinada

An ISO 9001 : 2015 Certified Institution

## Glimse of Telugu Bhasha Dinotsavam on 29.8.2023

## **The prize winners of the competitions are**

**Elocution competition :** 1<sup>st</sup> prize – P. Meghana II ECE (22HP1AO417)  
2<sup>nd</sup> prize – O. Mahesh IV MECH (20HP1A0355)  
3<sup>rd</sup> prize – I. Manjula II CSE-DS (22HP1A4413)

## **Essay writing competition :**

1<sup>st</sup> prize – Sk. Harshada Begum II CSE (22HP1AO5C9)  
2<sup>nd</sup> prize – M. Meghana II CSE-DS (22HP1A4414)  
3<sup>rd</sup> prize – G. Pratap Kumar III MECH (21HP5A0330)

## **IEEE HANDS ON TRAINING**

ALIET NDLI CLUB organised a Hands-on user-orientation session on “Role of IEEE in Engineering Education” for B.Tech 2<sup>nd</sup> year IT department students.

IEEE Xplore Digital Library training provided the ideal opportunity to discover (or re-discover) time-saving features for your research like,

- ☐ Retrieving the right set of articles from over 5 million records
- ☐ Accessing the Journals and browsing the journals through titles & topics.

## **PROGRAMME DETAILS**

Topic : Role of IEEE in Engineering Education

Trainer : Dr.Periasamy Pradeep Ravichandran,

Training Manager, EBSCO Information Services &

IEEE Xplore Digital Library

Timings : 2:00pm to 3:00pm

Date : 02-03-2024

Venue : IT Lab – 2,ALIET

## **NDLI USER AWARENESS PROGRAM 2024**

ALIET NDLI CLUB organised a NDLI User Awareness program for 1<sup>st</sup> year MBA students on 19<sup>th</sup> March 2024 in MBA class room. The Librarian K.Swathi Kiran gave the brief introduction about NDLI and NDLI Club. Later following the PPT of NDLI/NDLI CLUB registration 42 students got registered. NDLI user awareness you tube video was played to get the total knowledge about NDLI.

### **BANNER**

The banner features a dark blue header with the ALIET logo on the left and accreditation logos (AICTE, JNTUK, NAAC, ISO 9001) on the right. The main body is light blue and contains the following text:

**ANDHRA LOYOLA INSTITUTE OF ENGINEERING AND TECHNOLOGY**  
(AUTONOMOUS)  
Approved by AICTE, New Delhi and Affiliated to JNTU Kakinada  
Accredited by NAAC and An ISO 9001 : 2015 certified Institution
