

6.1.2. Women's cell

The Women's cell was established in the year 2008. The cell is composed of both faculty and students from the college and seeks to establish a gender-sensitive environment on campus and in the community at large. It has structured a variety of academic, technological, medical, cultural and social activities for the advancement of women and to raise awareness of the true relevance of gender equality in society among Engineering students. The cell conducts various activities for the welfare of the students.
