### Workshop on Java Application Development

Date: 27<sup>th</sup> and 28<sup>th</sup> July, 2017

Java Programmers are highly in demand, earning good salaries in top MNCs. So the department of Information Technology organized a two day workshop on **Java Application Development** on 27<sup>th</sup> and 28<sup>th</sup> July, 2017 to give ample opportunities for students.

Java, derived from C and C++, is an object-oriented programming language having a simple object model. Java has helped programmers in simplifying the coding and developing applications and installing them on cross-platform systems. We find Java applications on desktops, laptops, mobiles, tablets, embedded devices, cloud computing servers and also supercomputers. **Mr. S. Naresh Kumar**, Technical Lead & Managing Director, Access software solutions, Rajahmundry, said that **Java** is the most widely used software platforms for developing applications, whether used client-side or server-side. The students felt that the workshop was highly informative.

## Workshop

**Title:** Applications of NDT in various Industries

**Date(s):** 24<sup>th</sup> & 25<sup>th</sup> Feb 2018

**Time:** 10.00AM – 04.00PM

**Resource person:** Mr. Vijay Kumar & Team, Future NDT ( An ISO 9001:2005 Certified Organization), Vijayawada

**Participants:** 60 Mechanical students of IV Year, I Semester Two faculty members attended the workshop.

PRINCIPAL  
ANDHRA LOYOLA INSTITUTE OF  
ENGINEERING & TECHNOLOGY  
VIJAYAWADA-520 008.

**Description about the Workshops:**

The aim of organizing a two day workshop on **Applications of NDT in various Industries** on 24<sup>th</sup> & 25<sup>th</sup> Feb 2018 is to transform the students into technically most reliable engineers who can endeavor in their careers in the present competitive world. It was organized by the department of mechanical for final year students.

The field of Non Destructive Testing (NDT) is a very broad, interdisciplinary field that plays a critical role in assuring that structural components and systems perform their function in a reliable and cost effective fashion. NDT technicians and engineers define and implement tests that locate and characterize material conditions and flaws that might otherwise cause planes to crash, reactors to fail, trains to derail, pipelines to burst, and a variety of less visible, but equally troubling events. These tests are performed in a manner that does not affect the future usefulness of the object or material. In other words, NDT allows parts and materials to be inspected and measured without damaging them. Because it allows inspection without interfering with a product's final use, NDT provides an excellent balance between quality control and cost-effectiveness.

**Mr. Vijay Kumar**, Managing Partner of the FUTURE NDT, Vijayawada (An ISO 9001:2005 Certified Organization) and his team demonstrated various Non Destructive Tests by elaborately explaining the theory behind it. The workshop was organized to provide various job opportunities to the students by transforming them into the most efficient engineers who can deal with the non destructive testing in any manufacturing industries in India and abroad. The institution takes great pleasure in organizing such programs by inviting efficient trainers.

Vijayawada,

Date : 16-10-2017

From

The Head of the Department,  
Department of Computer Science & Engineering,  
Andhra Loyola Institute of Engineering and Technology,  
Vijayawada - 520 008.

To

Mr. N. Vamsi & Mr. P. Bala Srinivasaraju  
IBM cloud Trainers  
APITA

Sir,

Sub :- Invitation to be the Resource Person - Request - Reg.

\*\*\*

ALIET is one of the premier Institutions in Vijayawada, offering quality education to its students in the field of Engineering & Technology. The Department of Computer Science & Engineering is established in the year 2008 with a view to develop quality engineers to meet the current trends. The main aim of the Department of CSE is to excel in both academics and professional carrier. Apart from this they are interested to participated in various curricular and co-curricular activities to exhibit their skills. In this regard, the Department of CSE is conducting Workshops, Seminars, Guest lectures and Faculty Development Programmes in collaboration with industry and academia to improve overall standards of the Institute.

The department of CSE is planning to organize a F. D. P  
For Teaching Staff students from 23-10-2017 to 25-10-2017 (3) day (s)  
On cloud computing using IBM Bluemix  
Hence, I request your kind self to be a Resource Person for the  
Program. Please confirm your acceptance for the same.

Thanking you sir,

Accepted Sir.

M. Vamsi 20/10/17

P. Bala Srinivasaraju 20/10/17

Yours Sincerely,

(Dr. R. PRASANTHI JASMINE)

Asst. Professor & Head of CSE Dept.  
ALIET-VIJAYAWADA-520 008. Krishna Dist.

**Report on Seminar/Conference/Workshop/FDP conducted**

**Title:** R Programming & Python

**Date(s):** 28-7-2017 to 29-7-2017

**Preamble:**

A Two day workshop on **R Programming & Python** was conducted on 28-7-2017 and 29-7-2017, at Andhra Loyola Institute of Engineering and Technology, Vijayawada, Krishna District of Andhra Pradesh.

**Participants Profile:**

A total of 140 students and Faculty members of the department of CSE, ALIET participated in this workshop.

**Description about the Program:**

The primary objective of the workshop is to educate the faculty and the students about the advancements that have been taking place in programming languages like R & Python.

The department of CSE, organized a two day workshop on R Programming & Python on 28 July and 29 July 2019. **Dr. LAKSHMI LYDIA**, Professor VIIT, VIZAG and **Dr.A. KRISHNA MOHAN**, Professor, HoD of CSE Dept, JNTUK were invited as resource persons.

**Dr. LAKSHMI LYDIA**, Professor VIIT, VIZAG said that R is a programming language and free software environment for statistical computing and graphics supported by the R Foundation for Statistical Computing. The R language is widely used among statisticians and data miners for developing statistical software and data analysis. He further said that R provides a suite of operators for calculations on arrays, lists, vectors and matrices and also provides a large, coherent and integrated collection of tools for data analysis.

**Dr.A. KRISHNA MOHAN**, Professor, HoD of CSE Dept, JNTUK stated that Python is an interpreted, high-level, general-purpose programming language. Created by Guido Van Rossum and first released in 1991, Python's design philosophy emphasizes code readability with its notable use of significant whitespace.

The knowledge of R Programming & Python is important for engineering students to excel in their career. This workshop proved to be highly useful for the students and staff.

**Report on Seminar/Conference/Workshop conducted**

**Title:** An Orientation for Staff

**Date(s):** 08-06-2017 & 09-06-2017

**Preamble:** Orientation Programs open up opportunities, creating fulfilling careers and better lives in Professional world. Rev.Fr Dr. Emmanuel Arokciam, SJ, the Director, Behavioural Science-LIBA, Chennai, was the resource person. The members of the management, Rev. Fr. Dr. A. Francis Xavier the Director, Dr. O. Mahesh the Principal and Rev. Fr. M.L. Thomas the Asst.

Director made all the necessary arrangements for the smooth functioning of the Orientation Programme. The program highlighted that a stimulating and supportive learning environment, in which teachers interact with their students, contributes to success in academic life, professional life and overall wellbeing.

**Participant's Profile:**

There were altogether ...participants for the Orientation Programme.

**Description about the Program:**

**Objective: To develop the ability of the staff to inspire, empower, and foster environments of self-confidence, passion, and nurture the lives of students.**

Orientation Programs open up opportunities, creating fulfilling careers and better lives in Professional world.Rev.Fr Dr. Emmanuel Arokciam, SJ, the Director, Behavioural Science-LIBA, Chennai, enthralled the faculty with his illustrious, humorous and activity based approach.

In his lecture, he said that teachers play a crucial role in fostering positive thinking patterns in their students. They have a major role in shaping the mindsets of their students. He said that behavioural science has made great strides in recent years, helping the experts to understand how subtle differences in what teachers do can make an enormous difference in the learning process. He highlighted how teachers can change the behaviour of learners and help them achieve their goals. The guest underscored that the faculty should address the students by name while taking attendance or during classroom interaction. Some techniques were suggested to enhance their

'character skills' or 'soft skills' like perseverance, emotional intelligence and creativity, which help to mobilise intelligence so that students can achieve the goals they set themselves.

The faculty were set in groups to interpret case studies and offer techniques and solutions to tackle the issues. It was highly interactive and innovative. The faculty learnt that the education begins at home but is nurtured in educational institutions. The attitude of the teachers and their behaviour towards students' learning, contribute to academic success. The program highlighted that a stimulating and supportive learning environment, in which teachers interact with their students, contributes to success in academic life, professional life and overall wellbeing.

The Orientation Programme was highly informative. It introduced a variety of techniques to bridge the gap between faculty and students.

**Future Perspectives:**

The institution is looking forward to organise orientation programs for faculty as it has scope to enhance teaching learning program.
