Report on Seminar/Conference/Workshop/FDP conducted	
Title: "FIREWALL INSTALLATION CONFIGURATION AND MANAGEMENT"	
Date(s): 04-06-2018 to 08-06-2018	
Preamble: An FDP on "FIREWALL INSTALLATION CONFIGURATION AND MANAGEMENT" was conducted from 04-06-2018 to 08-06-2018 , at Andhra Loyola institute of Engineering and Technology ,Vijayawada, Krishna District of Andhra Pradesh.	
Participant's Profile: A total of 30 Faculty members (CSE&IT) of ALIET and staff from various colleges participated in this FDP .	
Description about the Program: The department of CSE and IT organized a five day FDP on Firewall Installation Configuration and Management from 4 th June to 8 th June 2018. Mr.S.SHANMUGAVEL Training Manager, ICT Academy, Chennai was invited as the resource person. Faculty who attended this FDP gained an in-depth knowledge of how to install, configure, and manage firewall. They also learnt the configuration steps for the security, networking, threat prevention, logging, and reporting features of the Palo Alto Networks.	
Feedback: All the Faculty members expressed their satisfaction about the programme.

Report on Seminar/Conference/Workshop/FDP conducted
Title: "CLOUD INFRASTRUCTURE & SERVICES"
Date(s): 31-10-2018 TO 5-11-2018
Preamble: An FDP on CLOUD INFRASTRUCTURE & SERVICES was conducted from 31-10-2018 to 5-11-2018 , at Andhra Loyola Institute of Engineering and Technology, Vijayawada, Krishna District of Andhra Pradesh.
Participants Profile: A total of 55 Faculty members from CSE & IT of ALIET and staff from various colleges participated in this FDP.

PRINCIPAL
ANDHRA LOYOLA INSTITUTE OF
ENGINEERING & TECHNOLOGY
VIJAYAWADA-520 008.

Description about the Program:

A cloud service is any vital service made available to users on demand via the Internet from a cloud computing provider's servers as opposed to being provided from a company's own on-premises servers. Cloud services are designed to provide easy, scalable access to applications, resources and services, and are fully managed by a cloud services provider.

Realising the importance of cloud service, an FDP on **CLOUD INFRASTRUCTURE & SERVICES** was conducted by the department of CSE from **31-10- 2018 to 5-11-2018**. It aimed at informing the staff about the **Cloud Infrastructure & Services**. **Ms .N. SRAVYA**, Training Manager, ICT ACADEMY, Chennai was invited as the resource person. Delivering her lecture, she stated that Cloud Services are Dynamic and scale. A cloud service can dynamically scale to meet the needs of its users, and because the service provider supplies the hardware and software necessary for the service, there's no need for a company to provision or deploy its own resources or allocate IT staff to manage the service. Examples of cloud services include online data storage and backup solutions, Web-based e-mail services, hosted office suites and document collaboration services, database processing, managed technical support services and more.

DEPARTMENT OF CIVIL ENGINEERING

Report on MIX Proportioning Workshop

The department of Civil Engineering conducted a workshop for final year students on **Concrete Mix Proportioning** on 29th November 2018. **Dr .K. Venkataraman**, Regional Head-

Technical Services, Ultra Tech Cement Ltd., Vaddeswaram was the resource person. The purpose of concrete mix design is to ensure the most optimum Proportions of the constituent materials to fulfill the requirements of the structure being built. **Concrete mix design** is the process of selecting the ingredients for a **concrete mixture** and deciding on their proportions. When designing a **concrete mix**, every engineer should always consider the desired strength, durability, and workability of the **concrete** for the project in question.

The event started with the formal inauguration function invoking the blessing of almighty. In this workshop students learnt that Mix design should ensure the desired workability, desired minimum strength, desired durability and produce concrete as economically as possible. The participants learnt to prepare concrete mix M30 grade using ultra tech cements. They actively worked on worksheets during the practical session.

Report on Seminar/Conference/Workshop/FDP conducted
Title: "UNDERSTANDING THE ROLE OF JAVA PROGRAMMING"
Date(s): 8-1-2018 to 9-01-2018
Preamble: A Two day workshop on Understanding the Role Of Java Programming was conducted by the department of CSE, on 8-1-2018 and 9-01-2018 , at Andhra Loyola Institute of Engineering and Technology, Vijayawada, Krishna District of Andhra Pradesh.
Participant's Profile: A total of 140 students & Faculty members from the department of CSE, ALIET participated in this workshop.

PRINCIPAL
ANDHRA LOYOLA INSTITUTE OF
ENGINEERING & TECHNOLOGY
VIJAYAWADA-520 008.

Description about the Program:

Java is a general-purpose programming language that is class-based, object-oriented, and designed to have as few implementation dependencies as possible.

It is used in both software and web development. Java is one of the most popular programming languages used to create Web applications and platforms. It was designed for flexibility, allowing developers to write code that would run on any machine, regardless of architecture or platform.

More than 1 billion computers and 3 billion mobile phones worldwide run Java. So the department of CSE organized a two day workshop on **Understanding the Role Of Java Programming** on 8th and 9th January 2018.

The Resource Person of this workshop was **Mr.Intisar Menhdi**, Director of BRAIN O VISION Pvt. Ltd, Bangalore. In his lecture, he stated that Java is used to build applications and platforms for a number of devices, including computers, laptops, gaming consoles, Blu-ray players, car navigation systems, medical monitoring devices, parking meters, lottery terminals and smart phones. It is also a key language for networking, particularly for data centers that store and transfer Web-based data.

Students were excited to know that Java is also used to create miniature, dynamic programs that run alongside or are embedded within Web pages. These programs called applets, can be used to display maps, weather, games or other interactive widgets or tools on a Web page. Knowledge of JAVA PROGRAMMING was highly useful for the students for academic /career advancement.

Feedback:

All the students expressed their satisfaction in the feedback.
