IV

Python is a popular choice among bigger businesses and developers. Starting with Python is relatively simple since it uses English phrases rather than technical jargon. The open-source nature of this software allows anyone to use or modify it without any restrictions. It supports object-oriented programming which helps in creating reusable components. Python has an extensive Standard Library. A huge number of object types, functions and methods are available without importing any external modules. These include math functions, list methods, and calls to a computer's system. Python is growing in popularity. Python is particularly growing in the data sciences and in use with GIS systems, physical modelling, and machine learning and computer vision. These are growing team problem-solving areas for engineers.

## Report On APPSDC Workshop

### WORKSHOP ON REVIT ARCHITECTURE

APPSDC conducted a workshop in CE Department named as “**REVIT ARCHITECTURE**” by trainers Mr. Dalinaidu. This was scheduled on 06th April 2021 to 10th April 2021. The agenda of program was to prepare blueprints and plans for Elements & Families, Modeling. REVIT ARCHITECTURE offers a lot benefits. By learning this software Student will save time and money, it'll also decrease drafting error, produce better quality renderings and be able to offer a complete solution involved in the project. It truly has made the work a lot easier. The students able to make work simpler and easier with least chances of error. They showed a good response during the session.

Dear sir/madam  
Please arrange for Revit Architecture work shop for five days tentatively from 6-4-2021 to 10-04-2021 for II & III year civil engineering students.  
After the completion of the workshop we are also planning for certification based on the student response.  
In the above context I request you to arrange the mentors for the same.

Thanking you,

Polytechnic (Post Office Road, Beside Kakinada, Kakinada (Dist. J), Andhra Pradesh-520 008  
Ph: 086-2476161

#### ABOUT THE COLLEGE

Andhra Loyola Institute of Engineering and Technology (ALIET) is a sister institution of the reputed Andhra Loyola College Vijayawada. These two institutions are administered and run by Loyola College Society, Concho-Vijayawada.

ALIET was approved by AICTE, New Delhi on 04-06-2008 and is also an ISO 9001:2015 certified institution and accredited by NAAC. The institution is recognized by the government of Andhra Pradesh and affiliated to JNTUK. The institute is offering 6 UG programs with an intake of 540 (CME-120, ECE-120, EEE-60, MECH-120, CIVIL-60 & IT-60) & MBA (60). Our institute is partially running with the roof top solar power.

#### ABOUT EEE DEPARTMENT

The Department of EEE has been offering a full time four year B.Tech Degree course since the inception of the institution. The department is provided with all required infrastructural facilities like well equipped laboratories, well qualified & dedicated faculty and technically sound supporting staff. It is continuously striving to impart quality education and competitive spirit among students for academic excellence. Many of our students' technical papers have been published in various national & international technical symposiums. The Department offers placements in various MNCs and Core companies.

#### VISION:

To mould the students as efficient Electrical & Electronics Engineers by providing quality education with skills and character to serve the society.

#### MISSION:

M1 - To provide high quality teaching and service that renders the students a supportive environment.

M2 - To impart holistic education and prepare the students to solve the problems by applying engineering principles to electrical systems.

#### ABOUT WORKSHOP

MATLAB is a high-level language and interactive environment for numerical computation, visualization and programming. Using MATLAB one can analyze data, develop algorithms, and create models and applications. The language, tools and built-in math functions make it possible to explore multiple approaches and reach a solution faster than with spreadsheet or traditional programming languages, such as C, C++ or JAVA. MATLAB can be used for a range of applications, including air power systems, signal processing and communication, image and video processing, control system, test and measurement. More than million engineers and scientists in industry and academia use MATLAB.

#### TOPICS TO BE COVERED:

- Basics of MATLAB
- Simulation of Power Electronics Converter
- Introduction to Solar Energy Systems
- Simulation and Design of Electric Vehicles
- Simulation of Power System models
- Simulation of Electrical machines models
- Applications of Power systems
- Applications of Power Electronics

#### LEARNING OUTCOMES:

1. Implementation of power systems and power electronics using MATLAB
2. Hands on Experience

#### ELIGIBILITY

This program is open to all the EEE department UG & PG students, Research Scholars.

#### Jemma Llewellyn. PhD

University of Guelph, Ontario, Canada

Jemma Llewellyn is a community-based arts practitioner and Post-Compulsory Education teacher from Wales, UK. She has worked in formal education settings and youth arts organizations, with children and young people from the ages of 6 to 25, including ESL students, and students with additional and complex learning needs, in China, England, Wales, and Canada. Jemma's PhD research, practice, and scholarship focuses on addressing human rights issues by providing an artistic platform where youth voices are amplified and the practice of adult allyship is modeled through improvisation and collaborative mentoring. It is her belief that to make real social change in the world we need to address the transhistorical hierarchy paradigm between children/youth and adults, through youth-led dialogical participatory practices.

Dear Member/Awardee of Green ThinkerZ,

Greetings!

Apropos the subject cited above, International Institute of Organised Research (I2OR), India in Association with Green ThinkerZ, India, Centre for Modern Construction, Western Sydney University, Australia, Sustainable Cosmos, SusCos Academy and The Intelligent Indian is going to organize 7th International Conference on Interdisciplinary Research for Sustainable Development (vIRSD 2021) which has been scheduled to be held on 25th December 2021.

**Being a Member/Awardee of Green ThinkerZ** and Considering your expertise and vast experience in the field of Education and Research, you are cordially invited to act as a "Keynote Speaker" and submit your Video Presentation for the vIRSD 2021 which will be streamed during the event.

As the mega event is being held virtually, in order to avoid any technical glitch/issue during the live presentation, it has been decided by the organizing committee to receive pre-recorded videos from the "Keynote Speakers".

**Theme:**

The Theme of Global Edu-conclave 2021 is UN's SDGs 2030, You may pick one or more Goals and showcase your Presentation as your contribution towards the Goal(s) through Education or Research (see attached file for SDG Goals)

Duration of Presentation Video: 10 - 20 Mins

Guidelines for recording and submission of your Video:

1. Record your Presentation Screen (Screen Casting) or Self Presentation Video with plain Background and Clear Sound
2. Submit the google drive/ onedrive link of your recorded video
3. Submit your High quality close-up photograph through mail along with your detailed CV/Profile/Resume (For Creative Web Banners)

We are looking forward to make this event a great success with your contribution.

Your contribution will be duly acknowledged and certified.

- Note: 1. The theme of your presentation or talk should be inline with the theme of the conclave.  
2. Submission Deadline for Video is 30-November-2021
